Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not clear what is meant by "classification code is divided into 5 to 100".

Appropriate correction is required.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hamlin et al (US 5,473,738) in view of what is commonly known in the art..

A). Claims 1 and 6 are rejected because Hamlin et al (Hamlin hereinafter) discloses a method comprising, storing color values in the memory of a computer, measuring color of a sample and assigning a value to the sample and comparing the value with that of a reference value, and retrieving the color of the sample from the computer storage device (see Figures 1a, 1b, and 6;

Art Unit: 2877

col.4, line 15- col.7, line 22) for retrieving a paint color. However, Hamlin does not explicitly disclose a method to retrieve metallic paint color in a system for retrieving a metallic paint color of an approximate color.

B). It is well known in the art that if a paint color can be retrieved using Hamlin's method, it can be used to retrieve metallic paint color in a system for retrieving a metallic paint color of an approximate color.

C). In view of what is commonly known in the art, it would have been obvious to one of ordinary skills in the art at the time the invention was made to incorporate retrieving of metallic paint color into Hamlin's system due to the fact that such a combined system would provide an alternate method to retrieve metallic paint color in a system for retrieving a metallic paint color of an approximate color. Accordingly, such incorporation would have constituted an alternative means/obvious engineering expedience for one of ordinary skill in the art at the time the invention was made.

Claim Objections

5. Claims 3-5 and 7-10 are objected to because they are dependent on rejected base claim(s).

Allowable Subject Matter

6. Claims 3-5 and 7-10 would be allowable if the rejections to the base claim(s) set forth in this Office action can be overcome.
